Dear Harold,

Senator Schweiker says the Warren Report is about to fall "like a house of cards." Rumors are that "Time" will come out soon in favor of a new investigation. your efforts are bearing fruit. My tribute to your work appears in the Letters to the Editor, S.F. Chronicle 10-13-75, in commenting on Joseph Krafts' view of a JFK assassination probe as "trivia".

How about sending a copy of "Post Mortem" to my Congressman Dellums on the House Intelligence Committee? Last weekend he said new, "explosive" information on domestic assassinations would be forthcoming. Your view? Don Edwards seems interested in probing the FBI's coverup. Maybe a real investigation is finally going to take place within the next six months. I hope your material will reach House investigators. Best wishes,

Garett
